SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_55978
Title of the Manuscript:	Optimization of the Extraction Procedure of Apixaban from Dried Rat Plasma Spots
Type of the Article	Short communication

General guideline for Peer Review process:

This journal's peer review policy states that <u>NO</u> manuscript should be rejected only on the basis of '<u>lack of Novelty'</u>, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	Question 1: In Figures 2c and 2d the authors reported that for mixtures of MeOH:H ₂ O and ACN:H ₂ O "the addition of 0.1% formic acid resulted in about 30% reduced extraction". Why the authors chose to add FA to the extrator solvent to evaluate the optimal extraction temperature (Fig. 3), optimal extraction time (Fig. 4) and volumes of solvent (Fig. 5)? Question 2: The title of the figure 4 is "Normalized atenolol recovery from DPS at different temperature: MeOH:0,1% of FA in H ₂ O mixture (a), ACN:0,1% of FA in H ₂ O mixture (b), MeOH:H ₂ O mixture (c), MeOH:ACN mixture (d)." The title does not match the results described.	
Minor REVISION comments		
Optional/General comments	In conclusion, the authors mentioned "For better optimization, additional experiments must be performed with detailed parameterization in the range set in this work." In this context, the authors could cite examples of additional experiments.	

PART 2:

		Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
