

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_62181
Title of the Manuscript:	MATERNAL NEAR MISS IN A TERTIARY CARE HOSPITAL
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Paper is not meeting its aim and objectives – provided results and conclusion are not consistent with it. It is not determined either maternal near miss incidence or percentage of Institutional Maternal Near Miss Mortality ratio.</p> <p>Material and method section is not finished, not clarified how, where and how long data was collected, what was the strategy of choosing near-miss cases, what was the design of the study, which application was used for analyses.</p> <p>No information about ethical approval.</p> <p>Title is too general and needs to add – location and period of study</p>	
Minor REVISION comments	Needs language wash from a native speaker; Needs technical review for spacing, sentence structure.	
Optional/General comments	Without major changes paper is not adding scientific value to a society	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
