PART 1: Review Comments

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments	- A lot of spelling and grammar mistakes in the whole document. Thus please check the whole manuscript - Please check the introduction, the English language of the introduction is quite poor. Thus it's better to get the whole document checked by a native English speaker. - Italicise the botanical names in the whole document - Add P values if you find the results significant. Thus please use a statistical package and show significant values.	
Minor REVISION comments	In figure 5 and 6 the units are not very clear in the graph shown	
Optional/General comments	The study is useful and the experiments are done well.	

PART 2:

	Reviewer's comment	Author's comment *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Are there ethical issues in this manuscript?	*(If yes, Kindly please write down the ethical issues here in details)*
