

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_62475
Title of the Manuscript:	A Tetra-Primer Amplification Refractory Mutation System–Polymerase Chain Reaction for genotyping of of rs8099917& rs12979860 IL28B Polymorphisms in Iranian HCV patients
Type of the Article	Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1. Extreme English editing is recommended due to various typo and grammatical errors.</p> <p>2. Title of the study needs to be rephrased as article is not completely focused on T-ARMS-PCR. Other parameters are also studied.</p> <p>3. Abstract needs to be shortened, especially the conclusion does not give the exact picture of the study.</p> <p>4. Objective of the study does not match with Introduction and Discussion.</p> <p>5 Introduction section needs to be rearranged as too much literature is discussed. 4. T-ARMS-PCR methodology should be written in clear words.</p> <p>6. Discussion needs to be re-written as it does not focus on the main objective of the study which is claimed to the Evaluation of T-ARMS-PCR for IL28B genotyping.</p> <p>7. References are too old, no ref after 2016, new references should be added.</p> <p>See the attached file for more comments.</p>	
Minor REVISION comments		
Optional/General comments
