

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_62804
Title of the Manuscript:	Comparative study on antidiabetic effect of ethanolic extract of jute leaf on neonatal streptozotocin- induced Type-2 diabetic model rat
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The authors investigated the antidiabetic properties of <i>Corchoruscapsularis</i> and <i>Corchorusolitorius</i> varieties of jute leaf (ethanolic extract) on nSTZ-induced type-2 diabetic rats.</p> <p>1-The author should clarify what is meaning by neonatal STZ 2- I order to sharply declare the antidiabetic effect of both extract you have to fractionate all the contents of extraction and to refer to each compound and its role as antidiabetic effect 3- Serum Insulin should be measured to elucidate the mechanism of antidiabetic effect</p> <p>4- In the introduction, the authors are not adequately described the rationale of the work. As there was no explanation of why and how the authors came up with the idea</p>	
Minor REVISION comments		
Optional/General comments
