PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Selection of study participants is not clear. "Being exposed to COVID" is an ambiguous term and does not warrant being diagnosed as COVID positive. The authors need to provide clarification regarding the same.</p> <p>Calculation of sample size is not mentioned.</p> <p>One of the objectives of the study was mentioned as "study also deals with analysis of the knowledge among the dentists regarding the diagnosis, prevention and treatment protocols of Covid19" but neither the questionnaire used nor the results had any data regarding this.</p> <p>No clear criteria regarding which participants were considered as COVID positive, free or recovered are mentioned.</p> <p>The results have too many graphs and should be presented concisely.</p> <p>No mention of informed consent and ethical clearance for the study has been mentioned.</p>	
Minor REVISION comments		
Optional/General comments	The manuscript has many grammatical and spelling errors.	

Review Form 1.6
