

SDI Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_54745
Title of the Manuscript:	Consequent Quantum Mechanics by Applying 8-Dimensional Spinors in the Dirac equation
Type of the Article	Original Research Article.

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	----- Accept	-----
Minor REVISION comments	-----	-----
Optional/General comments	-----	-----

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p> <p>The authors used the methods of relativistic quantum theory for the quantum states of quarks and neutrino particles. They found that The fractional charge of a particle can be attributed to the strong interaction between two or three quarks, while the zero charge and rest mass for neutrinos are created by the weak interaction in the transformation processes of fermions.</p>
