| Compulsory REVISION comments | <p>This research is good, it is closely related to the development of Nigeria, especially the community's small businesses related to the basic life of the community (the processing of meat, whose raw material is well known from the area).</p> <p>Does the abstract have a formula like this, or should it be written in one paragraph and does not have to state it explicitly?</p> | |
| Minor REVISION comments | <p>It needs to be considered to clarify whether the measure of Socio-economic Characteristics is the same as the demographic characteristics, this is because there are not too clear references related to the concept of Socio-economic Characteristics.</p> | |
| Optional/General comments | <p>This manuscript is rather simple yet quite original. If possible the outhor might want to add more independent variables to predict the value addition.</p> | |
