

Editor's Comment:

I have found some drawbacks in the text presented:

It seems desirable to add the work of 2018 to the reference list:

"Abbas RK, Elsharbasy FS, Fadlelmula AA (2018) Nutritional Values of Moringa oleifera, Total Protein, Amino Acid, Vitamins, Minerals, Carbohydrates, Total Fat and Crude Fiber, under the Semi-Arid Conditions of Sudan. J Microb Biochem Technol 10: 56-58. doi: 10.4172/1948-5948.1000396"- that will make the manuscript more valuable

A lot of mistakes with references:

1)Reference "Price, 2000"- is absent in the reference list- only "Price, 2001"

2) In the text: (12) (Paliwal et al, 2011; Shama et al, 2012)?????- while in the reference list only Paliwal et al, 2011. May be it is "Sharma et al,2012 (ref.17????)

3) the same with "(13) (Lai et al;2010; Huang et al; 2012)"- there is no reference "Huang" in the reference list

4) Description of references 2-9 is not completed (see reference list)

May be it is better to cite the works without numbering them? For instance (Sharma et al, 2012)

5) Moringa oleifera should be written in Italics

6) there are some misprints in the text (marked yellow)

No other comments with the work. In a whole it suits the demands of the journal and may be published after short revision.
