

Editor's Comment:

Acceptance after some minor corrections

Minor corrections from Editor;

- 1) Methane production: according to information in Line 32, you can express CH₄ concentration in the biogas for only max biogas production.
- 2) Room temperature of lab: there is no need this information in line 160.
- 3) Office paper size: you can write the size of office paper used in the experiment, such as A3, A4, etc., in the material and methods section.
