

Editor's Comment:

I believe that the manuscript has not been corrected as suggested by the reviewers and requires additional corrections and additions.

Abstract – how to indicate one of the reviewers, the number of words should be reduced to around 250,

page 3 – how to indicate one of the reviewers, the map of study area should be added,

pages 4-5 – how to indicate one of the reviewers table 1 is missing,

page 4 – basic information such as Beer-Lambert Law should be removed,

page 4 – more information on the determination of heavy metals content should be added: model, manufacturer and origin of the spectrometer, atomization method, origin of the standards used, evaluation of linearity of standard curves, etc.

Table 2 – values of standard deviations should be added,

Tables 2 and 3 – data should be evaluated statistically.
