EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>Only I have a question.</p> <p>In the manuscript say: the authors were the ethics committee with some friends.</p> <p>I am president of an ethics committee and never one author can evaluate the ethics from his/her research.</p> <p>The review should be from an independent ethics committee.</p> <p>It is very important in this manuscript. I do not know the rules for the work of ethics committee in France, but I think are based in Helsinki Declaration</p>	<p>I'm sorry, our ethics paragraph was unclear. In practice, the Ethics Committee is composed of the authors and other colleagues, but of course, in accordance with the Helsinki rules, the authors have not been involved in the handling of this dossier. This is a common practice in France during this pandemic; for example, this is what is being done at the IHU in Marseille or in the recent study published by Dr Guérin.</p> <p>We have clarified this paragraph to make it clearer.</p> <p>Thank you for your interest.</p>
