EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
1. There are a few aspects that need review in order to consider	<ul style="list-style-type: none"><li>➤ The sesame meal is used for human consumption only in Godavari districts of Andhra Pradesh. In other places people don't use it for human consumption and no idea about its nutritive value. So, the title was chosen like that. If you strictly recommend me to change the title I will change</li><li>➤ The taxonomic identification of Moringa was identified based on its morphological characters and its nutritive value also best matches with <i>Moringa oleifera</i> as per the previous literatures</li><li>➤ Work was done with a view to commercialize the product. We focussed majorly on major nutritive value and we didn't focussed on phytochemicals</li><li>➤ P1, P2 and P3 in the table were codes given to the samples mentioned in the text</li><li>➤ Revision made as per your comments.</li></ul> <p>Thank you for your comments.</p>
