

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>My final decision is "minor revision."</p> <p>Please give the followings to the authors.</p> <p>-Where is the explanation of Figure 5 in the text?</p> <p>-For Table 2, please correct the followings based on IS units.</p> <p>"M" should be "m."</p> <p>"w" should be "W."</p> <p>"k" should be "K."</p> <p>"Kg" should be "kg."</p> <p>"m-k" should be "m K." No "-."</p> <p>-For the section 3.0.7, the following authors' comments should be included in the text.</p> <p>Otherwise, the readers do not understand why the authors discussed only 2 and 5.</p> <p>"Therefore the 2 and 5 was achieved by dividing the area of the leaf by the ground area. Both are measured in meter square hence the cancellation of the meter square. In my case a software application called vaticanopy was used to get the leaf areas of 2 and 5."</p> <p>-For Tests 2 and 3 in Table 3, "Effect of leaf Area index of 5 and 2respectively" should be "Effect of leaf Area index of 2 and 5respectively."</p>	<p>Corrections made in the manuscript.</p> <p>Corrections made in the manuscript.</p> <p>Suggestion included in the manuscript under 3.0.7</p> <p>Corrections made in the manuscript.</p>
