**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Since it is a bibliometric study, it is better to include scientometrics and its relevance in the introduction. The need of the study and its relevance in the present context can also be added.</p> <p>Literature Review section is not included in the content. Few studies are included as part of the Introduction. Since it is bibliometric study, enough number of previous studies are available for review.</p> <p>Most of the citations are from the journal "Scientific Reports"(23 nos.). Reviews on the area of study can also be added from other Journals in the domain.</p>	
<b>Minor</b> REVISION comments	<p>There are only 3 tables and 05 Figures in the analysis section and it can be increased by adding few more objectives.</p>	
<b>Optional/General</b> comments	<p>References should be as per the journal format. Major corrections required as per DJLIT style.</p> <p>The manuscript need minor revision and can be accepted for publication in the <i>IJPSS</i> after making the corrections and incorporating the suggestions.</p> <p>The manuscript needs to be edited for grammar and sentence structure and plagiarism check is also required.</p> <p>On the whole the study is good enough to be considered for publication.</p>
