PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is good in the field study research. Furthermore, Burkina is high in carbohydrates and protein and can, therefore, be used an energy and protein source although the short storage life of the drink can limit its use and availability. Storage temperature did not affect the physicochemical properties (pH, titratable acidity, brix and phenolic content) of burkina, although, storage at a higher temperature accelerated microbial grow leading to faster spoilage.	
Minor REVISION comments		
Optional/General comments
