FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Dear author/s, Thank you for the improved version of the manuscript. In order to be suitable for publishing, please review the following aspects:</p> <ol style="list-style-type: none"> 1. Please present the research instrument (how many questions, which type of questions, how were evaluated etc.). 2. Figure 1: should be bar type chart, not pie, since is multiple choice question. 3. If the total number of interviewed farmers were 120, from where in table 1 the total number of responses are 133, for instance? I mentioned even before that is unclear how many farmers were interviewed, please review this aspect. There should not be more than 120 answers, if this was the sample size. 4. In table 2, is not clear the percentage. From where you have 167 answers? Even if it would be multiple choice question, the maximum number of answers should be 120. 5. Please review the entire data analysis. At this moment is no relevant.
