

SDI Review Form 1.6

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_51514
Title of the Manuscript:	Subclinical mastitis survey on milk combination in dairy sheep in Kurdistan region of Iraq
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	There are important corrections to be done. I detached all this corrections in the text, but is very important to highlighted the need of corrections in material and methods, the explanation about vaccination of animals and the discussion of results. The inclusion of casein mensuration is important in this type of article. In this case, it is necessary the inclusion of this analysis or one justify by its absence in the study.	
Minor REVISION comments	I suggest a revision of the language. Although I am not an expert, there are several errors in the text.	
Optional/General comments	I suggest a rigorous revision in references used. Several references are related to bovine mastitis and there are references about eggs and chicken production as: 3-Mishra, S.K., Panda, B., Mohapatra, S.C., Ahuja, S.D. (1993). Genotype-protein interaction for egg production traits in Japanese quail. India J. Poult. Sci., 29(1): 18-22. 18-Kotula A.W., Thomson, J.E. Kinner, J.A. (1960). Weight increase during chilling of broilers as influenced by methods of opening the abdominal cavity during evisceration. Poult. Sci., 39: 26-27 21-Singh, P.K., Khatta, V.K., Thakur, R.S., Dey, S., Sangwan, M.L. (2003). Effects of phytase supplementation on the performance of broiler chickens fed maize and wheat baseddiets with different levels of non-phytate phosphorus. Asian Australas. J. Anim. Sci., 16(1):1642-1649. 24-EI-Dengawy, R.A. and Nassar, A.M. 2001. Investigation on the nutritive value and microbiological quality of wild quail carcasses. Nahrung/Food 45. No. 1, pp. 50-54.
