**PART 1: Review Comments**

|                                     | <b>Reviewer's comment</b>  | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| <b>Compulsory</b> REVISION comments | I believe the case report can be re-written with focus on the Language and Grammar which seems to be poor. Abstract should be precise and informative. Also the author has not provided a proper clinical , radiological , operative and outcome details. There also seems to be plagiarism at different points. As the article is " case report with review of literature" , more should be added to the discussion part which appears to be a little inadequate for the report.<br>I suggest a MAJOR REVISION / re-writing the article after which it may be considered for publication if feasible. |  |
| <b>Minor</b> REVISION comments      |  |  |
| <b>Optional/General</b> comments    |  |  |

**PART 2:**

|   | <b>Reviewer's comment</b>  | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
