This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The case report is well presented. Athor need to review the following issues for acceptance of the manuscript for publication-</p> <ol style="list-style-type: none"><li>1. Author should address ethical issue like informed consent</li><li>2. Figures are not properly numbered. Figure 1 is showoing a reconstructed image and not an intra-operative image, Fig-2 is image of ERCP not MRCP etc.</li><li>3. How common is bile duct injury in PAT in India? Is there any reference?</li></ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"><li>1. Grammatical/printing mistakes, like- " oc,curing", "±"</li><li>2. ERCP has other advantages too- like minimally invasive, low cost----</li></ol>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
