**Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The work is impressive, and the results are interesting. However, some points deserve to be clarified before publication. I recommend the publication with minor revisions as follows:</p> <p>Abstract and introduction are well-written and the area of the work is adequately discussed. The results have been perfectly shown via adequate numbers of figures. Some grammatical errors should be rectified. Punctuation is not done on some occasions.</p> <p><b>General Comments:</b> The patients then referred to our hospital..... The patients were then referred to our hospital. A multidisciplinary meeting then done.... A multidisciplinary meeting was then done. myocardial inflammatory states, renal impairment, psychological distress, chronic fatigue and musculoskeletal deconditioning.... myocardial inflammatory states, renal impairment, psychological distress, chronic fatigue, and musculoskeletal deconditioning.</p> <p>Figure 2. Separation of pericardium of two babies... Figure 2. Separation of the pericardium of two babies.</p> <p>The diaphragm then reconstructed and fixated to the posterior part... The diaphragm was then reconstructed and fixated to the posterior part.</p> <p>The costae side of the metal plate then sutured with sternal wire... The costae side of the metal plate was then sutured with sternal wire.</p> <p>Literatures recommends elective surgery can be done... The literature recommends elective surgery can be done.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
