PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Literature Review: The topic has quite been well development but more emphasis should be given to the rational of the relationship between between CAPM and Stock Returns as this has not been well explained. There is not enough empirical evidences.</p> <p>Research Methodology: The research methodology is quite explained but more emphasis should be given in terms of objectives, the research hypothesis, regression model.</p> <p>Discussion and Results: The analytical part has not well been explained. It has been noted that some empirical evidences have been included in this section when they should be stated in the literature context. The language used should be more technical. Even though, the author has attempted various methodological measures, these have been properly analyzed. However, these can be improved. It is important to remove the title of the references and not to insert them in the results and these should be included in the references.</p> <p>Conclusion Too basic</p> <p>The refernces should be re-written again according to the requirements of the journal. Grammatical and punctuation errors have been notes in the manuscript, so this should be rectified.</p>
