Compulsory REVISION comments	<ul style="list-style-type: none"> • Abstract is informative. • Introduction= Fair with references. • Materials & methods- Fair • Results & Discussion- Very fair with statistical analysis taking ANOVA and Duncan Test. 	
Minor REVISION comments	-----	
Optional/General comments	I read the manuscript very carefully, the research paper is well explained without any corrections. Such experiments are needed to increase fish seed production to reach the goal of food growth enhancement for satisfying for the growing population size. Such papers are needed to the minds of the people. I referred APA method to check the references present in text and in the reference section and are according to the guidelines of the journal. In results & discussion the photographs are giving immense clarity of the research work and it maintains the quality of the journal. With some minor corrections may send to the editorial board for the further process
