

SDI Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Immunology</a>
Manuscript Number:	<b>Ms_AJI_56867</b>
Title of the Manuscript:	<b>Stem Cell Therapy in Treatment of Non-Communicable Diseases: Possibilities and Challenges</b>
Type of the Article	<b>Review Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The review very briefly, but clearly and distinctly describes the stem cells and gives substantive definitions.</p> <p>Areas of clinical use of stem cells in modern medicine are described. The review superficially covers almost all aspects of stem cells use.</p> <p>This review is good for people who don't know anything about stem cells.</p> <p>The right of the editors to decide whether such a review is interesting for publication in a journal.</p> <p>There are currently dozens of highly qualified and detailed reviews on each topic covered in this article.</p> <p>In the primitive genre, the review is quite qualified</p>	
<b>Minor</b> REVISION comments	<p>It would be nice to give not 3 references in this section, but to each nosology "Diseases and conditions where stem cell treatment is being investigated include: Non-union/Delayed Union Fracture, Osteonecrosis or Avascular Necrosis (AVN),Knee Cartilage Defect, Rheumatoid Arthritis (RA), Spinal Cord injury, Spinal Fusion Treatment, Cerebral Palsy, Autism, Motor Neuron Disease, Multiple Sclerosis, Parkinson's Disease, Alzheimer/Dementia disease, Cerebellar Atrophy, Cerebellar Ataxia, Spinal Muscular Atrophy, Down Syndrome, Optic Nerve Damage, Retinitis Pigmentosa, Macular Degeneration, Dystrophy Glaucoma Disease, Diabetes (Type 1 &amp; 2) (12), Acute/Chronic Liver Disease, Muscular Dystrophy, Acute/Chronic Kidney Disease (13), Peripheral Arterial Disease, Myocardial Infarction, Lung Disease, Erectile Dysfunction, Anti- Aging Treatment, Scleroderma Disease, Skin Replacement, Male Infertility, Female Infertility, Breast cancer, Scar, Colon cancer, etc. (14)."</p>	
<b>Optional/General</b> comments		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
