

SDI Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Medical Principles and Clinical Practice</a>
Manuscript Number:	Ms_AJMPCP_53636
Title of the Manuscript:	<b>Histo-Architectural and Renal Function Markers in Long Term Consumption of Instant Noodles in Adult Wistar Rats</b>
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p><b>ABSTRACT</b></p> <p>It would be better to highlight the various sections as presented in the main text: <b>background, methods, results, and conclusion</b></p> <p><b>RESULTS</b></p> <p>Result comments should precede tables and figures</p> <p><b>REFERENCES</b></p> <p><b>Text referencing</b> Attn.! cases of double referencing observed, which is unacceptable.</p> <p><u>Examples of double referencing with different styles</u></p> <ul style="list-style-type: none"> <li>➤ Thereafter, the kidney was carefully removed and some fixed in 10% formal-saline for histological technique after the method of Kurman <i>et al.</i>, (2009) while some kidney samples were quickly homogenized in a mortar and pestle with a pinch of acid washed sand and a total of 5 mls of normal saline (0.9%) added sequentially [12].</li> <li>➤ The result obtained in this experiment is in consonance with and continuation of the work carried out by Enaibe <i>et al.</i>, 2007 which reported that administration of camphor resulted in mild edema with glomerular nephritis, glomerular labulation, tubular necrosis and congestion of blood cell in the kidney rabbit [15].</li> <li>➤ This finding also supports the previous report of adjene <i>et al.</i>, 2010 [23].</li> </ul> <p><b>As solution, authors are advised to adhere to the numerical style they started off with; just a single referencing style is permitted in a manuscript.</b></p> <p><b>Reference list</b></p> <p>Most of the references are not appropriately done in addition to the fact that the list is not in harmony, as seen in the following examples:</p> <ol style="list-style-type: none"> <li>3. Udeogu, E; Onyeka, E.U; Umelo, M.C. (2014).?? Potentials of using cowpea - wheat composite flour in noodles products. European international Journal of Applied Science and Technology, 2014; 1.??????</li> <li>6. Sanni, M; Ejembi, D; Emmanuel, T. F; Abbah, O. C; Okwutachi S.O. (2013). Effects of chronic administration of indomie noodles on the activity of alkaline phosphatase of rat small intestine. Journal of Pharmaceutical and Biomedical Sciences, 2013; 34(34): 1682 - 1687.</li> </ol>
