

## Review Form 1.6

|                          |   |
|--------------------------|---|
| Journal Name:            | <a href="#">Asian Journal of Orthopaedic Research</a>           |
| Manuscript Number:       | Ms_AJORR_69092  |
| Title of the Manuscript: | Femoral neuropathy Secondary to Iliopsoas Spontaneous Haematoma |
| Type of the Article      | Case study  |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments | <ul style="list-style-type: none"> <li>- Suggest using the same font throughout the manuscript, some part is in Times New Roman while some is in Calibri. Suggest using the same font size throughout the manuscript as well</li> <li>- Suggest to state in the dose and frequency of Acénocoumarol</li> <li>- Suggest to specify is there any possible of drug-drug interactions or drug-food interactions since although patient claimed that he is compliance to his medication. However, there is a possibility of drug-drug interactions with vitamin K antagonist. Besides, a change in diet with food rich in vitamin K may alter the INR level as well. Kindly explain on this.</li> <li>- Suggest to specify the treatment given to the patient during admission. Was any vitamin K served? Was there any surgical intervention done?</li> <li>- Suggest to standardize the format of references</li> <li>- Typo for REFERENCES, for REFERENCES instead</li> </ul> |   |
| <b>Minor</b> REVISION comments      | - Suggestion for keywords of <i>femoral neuropathy, retroperitoneal hematoma, oral anticoagulants, vitamin k antagonist</i>   |   |
| <b>Optional/General</b> comments    | The case report is written in a very brief way. Suggest to have more input on the management of the rare case and to add any input from the managing team to cover the knowledge gap in this rare condition for other clinician to refer to.  |   |

### PART 2:

|  | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |   |
