Compulsory REVISION comments	<p>After reading this paper, I noticed that there are some problems:</p> <ol style="list-style-type: none">1- The section RESULT AND DISCUSSION must be placed at the end, before the CONCLUSION;2- The equations are not written in the required form making difficult their meaning;3- In sections 2-16 the illustrative examples are missing and in particular in 5, it is not given the definition of regularization. <p>I think that this notes will help the author to improve his paper. However, as a review article, it contains the basic information and description for the problem it deals with, i.e, the regression analysis and its types.</p>
