PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Kits were weaned at 21 days then how the effect of weaning age was studied on growth performance of animals before 21 days period. On the contrary effect of birth weight on growth performance and weaning age requires to be studied. Analysis of variance table is not seen. Significant results be shown by superscripts. There is difference in body weight of the does that also affect the birth weight and weaning age of the animals.	
Minor REVISION comments	Minor corrections are shown in text in red colour.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
