Manuscript Number:	Ms_AJRB_66527
Title of the Manuscript:	STUDY THE PROTECTIVE EFFECT OF GINGER AGAINST THE TOXICITY OF DIMETHOATE ON HORMONES IN RABBITS
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>This article is an interesting scientific question. There is a set experiment with animals, which raises my opinion about the article.</p> <p>There are some grammatical inaccuracies. There are vaguely formed sentences. Not correct layout according to the requirements of the magazine - in literature, keywords.</p> <p>The goal is not clear. It should be formed without citing literature, because this is the goal of the authors themselves. In material and methods: indicate the permit number and ethical standards for working with animals. To be specified The results are duplicated in tables and figures. They should be cleared, suggesting that a table remain. 1 and FIG. 3 and 4.</p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>The authors have made serious omissions and this requires major changes before it is published.</p>
