Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ul style="list-style-type: none"> ➤ Introduction: where is the problem and the objective of the work? ➤ you have to use the equation editor to write the equations and then number them ➤ the list of bibliographic references is very long ➤ Ata Habib and Pirsabak: this reference exists more than 19 times in the text and does not exist in the list of bibliographic references ➤ in the work methodology you mentioned the statistical analysis while in the results we find no trace of these analyses ➤ you must write the titles of the axes of the ordinates and present the units for the graphs ➤ statistical analysis is not included in the graphs (error bar, groups) ➤ What is the difference between this work and that of that of Ata Habib and Pirsabak? 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
