	<b>Reviewer's comment</b>	<b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b>
<b>Compulsory</b> REVISION comments	The work constit a novel contribution in the mushroom subject, especially in the area under study (Bangladesh). It address key issues and of growing interest in the subject, as, for example, the role of fungi at the socio-economic level and their potential in human nutrition. In addition I consider that the work is well structured and the ideas are clearly stated. That is why I believe that the work can be published in the journal. Only I propose two minor considerations, set out in the section below.	
<b>Minor</b> REVISION comments	-It seems that the legend of figure 4 is missing -It might be interesting to consult the following article for the introduction section: Martínez-Ibarra, Emilio; Gómez-Martín, María Belén; Armesto-López, Xosé Anton.
