

SDI Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_60950
Title of the Manuscript:	Design, Analysis and Fabrication of High Clearance Self- Propelled Foliar Applicator
Type of the Article	Applied research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The search view is good This research is considered good research In practice, the use of this method is good for spraying, in order to maintain a constant pressure throughout the trial period. But the problem should blossom more clearly in the summary</p>	
Minor REVISION comments	<p>increasing the capacity of the motor to overcome soil resistance, with the tank volume of 225 liters</p>	
Optional/General comments	<p>The use of modern software in machine design and development is important The researcher has adapted these programs in engineering design and this is considered very good But it should be summarized in the presentation of the search because the number of pages is relatively large, and especially the presentation of results</p>
