

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_59931
Title of the Manuscript:	Impact of gas flaring on the serum antioxidant biomarkers of Eleme residents in Rivers State, Nigeria
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. Serum antioxidant biomarkers may be related to many factors: environmental pollution, people's living habits, age and weight, career, and so on. 2. Whether the water and soil pollutions are the same between the Eleme area and the control area except gas flaring? 3. Please compare the demographic characteristics of the two groups in detail include people's living habits, career, age and weight. 	
Minor REVISION comments	<ol style="list-style-type: none"> 1. It is suggested that more markers be used to confirm impact of gas flaring. 2. Whether more diseases in Eleme area were associated with decreases of serum antioxidant biomarkers? 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
