

SDI Review Form 1.6

Journal Name:	International Journal of Biochemistry Research & Review
Manuscript Number:	Ms_IJBCRR_67420
Title of the Manuscript:	Purification and some properties of <i>Dioscorea alata</i> (water yam) β -amylase
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The β -amylase from <i>Dioscorea alata</i> was purified and the binding properties of β -amylase with epicatechin was researched. This work could provide some practical reference for the exploration on the inhibitory effect of epicatechin on the β -amylase.	
Minor REVISION comments	1) The specific activity of β - amylase should be determined in the process of purification. 2) In figure 2, the line marked in the figure does not exactly correspond to the protein band.	
Optional/General comments	This manuscript is suitable for publication after minor revision	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
