**PART 1: Review Comments**

|                                     | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| <b>Compulsory</b> REVISION comments | It is important that the article develops a greater review of the study's background and compares the findings of other investigations with the results of the study presented. This will strengthen the discussion arguments of the document.                                     |   |
| <b>Minor</b> REVISION comments      | It is necessary to mention the main limitations and strengths of the study, as well as the possibilities of methodological transfer of the research to other contexts. This will allow to have a clearer vision of the problems that were found during the execution of the study. |   |
| <b>Optional/General</b> comments    | It is recommended to expand the number of bibliography consulted and referenced in the article   |   |

**PART 2:**

|   | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
