PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Menu script generally well written with sound methodology and well explained results. However, there is need to improve on literature review so as to illustrate the knowledge gap that is there to warrant the current study. The same can also be noted in discussion of results as there is very limited work which is pro or against current study. There is also need to improve on common grammatical errors this menu script. What do we conclude from current study and recommendation to the general farmers to ensure that their yield is not affected by crude oil spill that is frequently happening? May you please address issues highlighted using track changes in the menu script.	
Minor REVISION comments	Grammatical errors need to be corrected	
Optional/General comments	If suggested corrections are addressed menu script might be acceptable
