PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Prognostic Factors should be included after toxicity. Dosage of radiation should be mentioned in different conditions to be used like(Patients with positive margins should almost always receive 50 Gy of postoperative radiation. Unresectable tumors should be irradiated to a dose of approximately 56 Gy, with a 75% expectation of local control).	
Minor REVISION comments	There are few grammatical mistakes like in second paragraph the reference is not mentioned in Bishop et al., Keywords first word capital, Introduction is completely in capital letters but other headings only the first letter so all the headings should follow a uniformity.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
