FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<ol style="list-style-type: none"> 1. See Page 2, "where D may be a function of x, and is known as a diagonal matrix of positive constant diffusion coefficients", it is a bit confusing that D is a function of x or a matrix. Please mention clearly. 2. See Page 2, "In this paper we limit our discussion on this model since Schnackenberg model can be used to described the emergence of patterns on the animal skin." It is still having a grammatical mistake. Please check and do the correction carefully. 3. See Page 3, "In this group, the four systems are typically important", what does "this group" refer to? Please mention clearly. 4. See Page 9, "It is observe that", It is still having a grammatical mistake. Please check and do the correction carefully.
