

SDI Review Form 1.6

Journal Name:	Journal of Advances in Medicine and Medical Research
Manuscript Number:	Ms_JAMMR_51544
Title of the Manuscript:	ADENOMATOUS HYPERPLASIA IN THE UTERUS OF BINGE DRINKING SPRAGUE DAWLEY RATS ADMINISTERED WITH GORDON DRY GIN (MORINGA CITRUS BLEND)
Type of the Article	Journal

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors need to indicate if the histological slides were viewed under the same magnification and state the exact magnification used. This is useful if the study is to be reproduced by other researchers.	
Minor REVISION comments	Need to indicate if the animals used were inbred or not. If inbred, results cannot directly be extrapolated to humans as humans are not inbred. Or if the sub-strain of Wistar rat was used	
Optional/General comments	Is the genotype of these Wistar rats known? It would be good to know since tissue histology may be affected by it.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
