**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. Abstract section should be rewritten. There are same sentences with introduction section and also this section is not suitable for journal format.</li> <li>2. For bacterial identification, only vitek system is not sufficient. Some molecular methods should be used for identification. These methods can validate the identification of bacterial isolates.</li> <li>3. In reference section, all journal names must be written in the same and also suitable format for journal. E.g. <i>Journal of Hospital Infection</i> or <i>Microbiol Immunol</i>.</li> <li>4. The number of ethical approval must be indicated in the paper.</li> <li>5. There is new standart for antibogram test. It is CLSI. So, current methods, standarts and also data must be used for experiment.</li> </ol>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
