Compulsory REVISION comments	The whole manuscript should be revised. The grammatical mistakes must be corrected. The language itself not understandable in some sections. Legends and figures are not very clear. I have comments in the manuscript itself	
Minor REVISION comments		
Optional/General comments	The study is an important issue and I praise the work done for this study. However it's a scientific research and the manuscript presented should be scientifically written which is strongly lacking. Thus I would suggest major rewriting and then submit again before it is to be published.
