

SDI Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_65679
Title of the Manuscript:	Increasing Singulation Machine UPH Through Characterization and Standardization of Saw and Handler Parameters
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Part II: Review of related literature: References should be listed in this section as (1), (2), etc., so that reader can retrieve the pertaining literature. A study conducted in steel industry etc. NEEDS a reference!</p> <p>3.0 Methodology: Was the goal this accurate (13.09%)? I would express it as "by at least 13%"</p> <p>8.0 References: Several references are incomplete! Please, revise as requested by the Reviewer</p>	
Minor REVISION comments	In the Abstract: compromising would make a better term, than "Sacrificing"	
Optional/General comments	I made many language and style improvements (plural of nouns and verbs, sequence of tenses, more elegant phrasing of sentences, etc.) Most important observations were made directly on the manuscript, with track changes.	

SDI Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
