PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Material and Method: Missing statistical test and level of significance.</p> <p>Ethical standard: It is necessary to obtain the patient's consent for this type of treatment even if this medication is commonly used.</p> <p>Results: A laxative usually has prescription indications such as: age and dose. I can't find these data in the text and the child is very young.</p> <p>The n is small, could incorporate more cases and compare types of diets and types of laxatives used, by to compare the results.</p> <p>Because by observing the results of a single product, is not a research project.</p> <p>The results are incomplete.</p> <p>References: complete the reference data 7.</p>	
Minor REVISION comments		
Optional/General comments
