PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	the article reports that Amoxicillin/Clavulanate is the most frequent cause of antibiotic diarrhea but no information concerning the prevalence of the diarrhea related to the type of antibiotic used is available : in other words, what was the probability of having diarrhea using one antibiotic rather than another? If your data are not available, it would be useful to insert new bibliography on this topic Have cases of clostridium D. diarrhea been reported in your experience ?	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
