PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper should be rearranged to showcase the future trends and current trends, to lead the reader to what is upcoming and what has been done. As it is, this is only a collection and list of materials tried. The author should be able to analyse the data, not only reiterate them.	
Minor REVISION comments	Introduction needs a few corrections in grammar. (ex> Many restorative materials are commercially available with superior esthetics, mechanical properties and cost-effective cost effectiveness . While there are enormous developments and improvements in the material aspect.) The concept of incorporating remineralizing agents in restorative materials to reinforce the tooth is also being tried has also been tried . Please review the whole article for similar grammatical corrections.	
Optional/General comments	This is a good draft of an interesting topic. More in depth analysis for the material is needed to be interesting to the reader.
