

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_64454
Title of the Manuscript:	COVID 19-AN UPDATE ON ORAL CHANGES
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>-The citations should be more precise: till the paragraph "clinical features" (page 3 of 10) the articles are cited precisely, after the related sentence; after the above-mentioned paragraph the articles are cited in the title, with a lack of homogeneity, especially for the "ear symptoms" and "dysgeusia" paragraphs</p> <p>-TABLE 1: the authors write of "different stages in COVID"; it could be better explained if the table is taken from an accepted classification, and in case the name of the author of the classification should be cited</p> <p>-ABSTRACT: "SARS CoV-2 is a novel virus (...) originating from Wuhan", is not correct, would be better "virus(...)first detected in Wuhan"</p>	
Minor REVISION comments	<p>ABSTRACT: the SARS CoV-2 is a novel coronavirus THAT has created an impact</p>	
Optional/General comments	<p>The article is written without citing a case series or the direct observation of these symptoms .</p> <p>The writing style should be improved, in general, and made more precise</p>
