Title of the Manuscript:	ANTIBACTERIAL ACTIVITY OF SILVER NANOPARTICLES SYNTHESIZED USING SYZYGIUM AROMATICUM, CINNAMONUM TAMALA, CINNAMONUM CASSIA PLANT EXTRACT
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The text contains a large number of grammatical errors and needs to be completely revised and rewritten, as this compromises the understanding of important points. I have started to make some corrections and suggest changes in the text, but it is better that it be thoroughly revised by a native speaker of the English language. My own suggestions are printed in red.	
Minor REVISION comments		
Optional/General comments	On the whole, it is an interesting and relevant article, and presents a valid contribution to the field of research. To be published, however, it needs a complete review of the English text.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
