

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_65682
Title of the Manuscript:	VLVS: A KNIME Based Virtual Library Generation and Screening Workflow
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript reports the use of Python3 and libraries in the python scripts for KNIME-based virtual screening libraries to discover novel bioactive or drug molecules. The workflow of this manuscript will be useful for researchers working on computer-aided drug design/development to create personalized molecule libraries, perform virtual screening. The manuscript is potentially acceptable after minor revision in discussion, conclusion and references.	
Minor REVISION comments	<ol style="list-style-type: none"> 1. Discussion section should be revised with the comparison of results with the other available methods/tools, citing latest suitable references. 2. Conclusion must be concise and should be based on key findings 3. References: The revision should contain at least 2-3 latest references. 	
Optional/General comments
