

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_66763
Title of the Manuscript:	STUDY OF EXPRESSION OF p53 IN PROSTATIC LESIONS
Type of the Article	Original

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract has no methodology. Objective was not clear, so also results and conclusion. Difficult to understand the study from the abstract. It should be clear the number of benign, inflammatory lesions with p53 expression. The introduction is incomplete and full of typographical errors.	
Minor REVISION comments	Grammatical and typographical errors Few articles that study p53	
Optional/General comments	To improve on paper's organisation, less of general articles but more on p53. The article main findings should be obvious in abstract the main paper.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
