

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_67370
Title of the Manuscript:	Potential Therapeutic Effect of Bee Venom on Cisplatin-Induced Hepatotoxicity
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/journal/10/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	1) Give more detail about the specie of the rats in section 2.2. 2) It is well known that BV is toxic to a certain extent and a strong allergen. Why did the author not consider setting up a drug control group (the BV alone administration group). In addition, how to determine the dose of BV. 3) Reference 12 does not mention that BV has hepatoprotective property. 4) The size and layout of the picture 7 is not standard. 5) The description in DISCUSSION does not agree with the experimental results: "serum bilirubin" and "serum total bilirubin".	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
